

Class 4th Science assignment

Unit 1: Going to School

While going to school students may come across a water bodies like rivers, ponds. Lakes, some children have to go through jungle or through snowcapped mountains or plains even children may come across rocky paths. Water bodies can be crossed with the help of Bamboo Bridge, Trolley, Boats & also through a concrete cement bridge. While going through plains they can use Tonga, Buses, Bicycle riding etc.

Answer the Following questions:

Qno1: Do you have to cross any bridge on the way to your school?

Qno.2: What kind of Bridges are nowadays used?

Qno3: What kind of difficulties do you face on way to your school?

Qno.4: Going to school is easy through:

A: Plains

b: Jungle

c: Rocky Roads

Unit 2: Living & Non Living Things:

Living things show movement from one place to another on their own & have irreversible growth and reproduce their own kind. Nonliving things do not show movement from one place to another on their own and does not grow and do not reproduce their own kind. Living things need air, water and food to maintain the growth to show movement and to reproduce their own kind. Living things include all animals, plants, fungi, bacteria. Plants need CO₂, H₂O and sunlight to sustain life.

Human Beings & animals need oxygen for sustaining life & plants need carbon Dioxide to prepare their food.

Answer these questions:

Qno.1: Name any three living & Non Living Things?

Qno.2: Which Gas is required by animals to sustain life?

Qno.3: Which gas is released by plants?

Qno.4: Put (T) for true & (F) for false statements:

- i. Plants are living Things ()
- ii. Animals & Birds need food ()

- iii. A stone can walk on its own ()
- iv. All plants and animals breathe ()

Unit 3: Ear to Ear

Different animals have different kinds of ears some animals have small ears which we cannot see e.g. Sparrow, Crow, Pigeon etc.

We can identify the animals by their ears. We can also recognize animals by their skin e.g. Tiger, Elephant etc.

Some animals lay eggs e.g. Hen, Duck etc.

Some Animals give birth to young ones e.g., Human, Cow etc.

Dinosaur was the biggest land animal on earth which is no more on earth

Tiger is National animal of our Country

Answer the following questions:

Qno.1: Name three animals whose ears we can not see?

Qno.2: Name three animals which lay eggs ?

Qno.3: Name three animals which give birth to young ones?

Qno.4: Who is national animal of our country?
