

Chapters: Poonam’s Day Out and Our First School

Learning Out come: To Classify animals into different categories based on size, Where they live, How they move and parts of there body movement.

2. Types of family and idea about relationships

We must take care of animals petting them and Showing them how much we love them, playing with them and keeping them fit. We must feed them food which is healthy for them.

We see many animals around us some of them we keep inside our houses they are called pet animals. E.g Dog, Cat, Parrot. Some Animals live on farms they are called domestic animals. They are very useful to us. Where as some animals live in jungles they are called wild animals. E.g Lion, Elephant, Tiger, Bear. and those which live in water are called water animals.

Parts of Body used by animals for Movement
